

## Aoife Leahy

I am currently a student studying Interactive Digital Art and Design in SETU Carlow.

I love to create characters through animation and concept art. I thrive in bringing the characters to life through stories and background images. Art has always been a big part of my life and I am very passionate towards it.

In the past couple of years, I have started to design games and experiment with game mechanics. With this new skill obtained, I have been able to mix this with my art skills to create some visually pleasing games.

I am continuously learning new things by experimenting with different aspects of art. By doing this, I am constantly improving and making my performance strengthen.

This portfolio shows my past projects and gives a brief look into my ongoing journey.
